Birdstone

Birdstone is driven by an irresistible desire to combine the spiritual power of the blues with the richness of progressive rock. At the crossroads of mythological themes, esotericism and simple human passions, the trio tells of man's inner struggles and his mystical aspirations. Each concert becomes a wild ritual in which the audience and the golden-faced musicians fight together for the salvation of their souls.

Daishi

Since the year 2004 four toxic old men try to ruin Rock 'n' Roll...
