Daze Affect

DAZE AFFECT's selbstbetitelter #inyourfaceCore besteht aus einer Mischung aus solidem Oldschool- und Melodic Hardcore. Sie vereinen Elemente von Hatebreed, Stick to your Guns und würzen diese mit einer Selbstironie á la Deez Nuts. Dabei legen sie besonderen Wert auf eine enge Verbundenheit mit der Szene - bei ihren Live-Shows wird jeder in der Front Row mit persönlichem Handschlag begrüßt.

Lifedrainer

Lifedrainer was founded in the year 2020 as an idea to create heavy music with nasty breakdowns and bone crushing aspects which are able to send shivers down your spine. With the drop of their first EP A desolate place in april 2021 the five guys soon began to realize that their sound generates a gloomy atmosphere which is able to fill up a whole room with hate induced air. Lifedrainer constantly bend and try to thrash out the deathcore genre to their will, to create a special mixture of mindset and sound. Their lyrics tell the stories of all the fucked up things that are happening around the globe, to bring spotlight to topics the media won't tell you about.

Brute Siren

Brute Siren - born from the ashes of various punk/HC/metal projects in Salzburg, where there is more than Mozart and Jedermann - were founded in 2019 and released their debut "Wrecking Crew" in 2021. In the same year, the band saw the stage lights for the first time and have been on the road ever since, speaking into the conscience of the innocent about the failings of modern society. Get ready for some energetic songs to fight, cry and dance to.
