Hexis

Hexis emerged in Denmark in the year 2010, following the DIY-spirit of the Punk/Hardcore scene, while simultaneously being deeply rooted in the Black Metal sound. They are self-made as well as self-taught, and Hexis are constantly travelling the world. With over 1100 shows from the Faroe Islands to New Zealand and from Cuba to Mongolia under their belt, these guys have been the archetype of a hard-working and hard-hitting band. Combining the energy of Hardcore with the desolation of Black Metal and throwing in bits and pieces of Doom and Sludge, Hexis have crafted three full-length albums, namely "Abalam" (2014), "Tando Ashanti" (2017) and 'Aeternum' (2022), as well as countless EPs and Split-releases. The musicians behind Hexis are located all over Europe and they have been praised for both their outstanding records and, first and foremost, for their intense live shows that took them to high ranking festivals such as Roskilde Festival, Copenhell, Bloodstock Open Air, Roadburn or Damnation Festival.

Nàire

Naire ist eine Blackend Atmospheric Sludge/Crust Band mit schnellen treibenden Riffs im Wechselspiel mit langsamen, schwerfälligen Parts, düsteren Melodien und bedrückendem Gesang. Einflüsse kommen dabei von Bands wie u.a.: Amenra, Behemoth, Cult of Luna, Conjurer, King Apathy und Svalbard.
